

Gian Morris-Perez

I seek to transform ideas into high-fidelity prototypes. I am highly skilled in physical fabrication, prototyping, and 3D printing/modeling, as well as 3D texturing and rendering. I pride myself on my attention to detail in high quality designs. I work well in teams as well as independently. I am seeking jobs in an engineering or design field where I can use my creative talents in CAD, design, and media to inspire the next generation of STEM to STEAM.

Education:

The Churchill School

2019

Cumulative GPA: 3.84

National Honors Society Member

B.S. NYU Tandon School of Engineering

2024

Integrated Design & Media

Cumulative GPA: 3.775

Deans List 8 Semesters

University Honors Scholar

Cum Laude

Skills:

3D modeling, 3D printing, CAD, Augmented Reality, Fabrication, low-fi Prototyping, high-fi Prototyping, Soldering, Metalworking, Basic Circuitry, Graphic Design, Audio/Video editing, Web design and coding, Leatherwork, Basic sewing.

Software:

Fusion 360, Solidworks, Maya, Cinema4D (Redshift), Blender, Lens Studio, Adobe Suite (Illustrator, Photoshop, InDesign, Premiere Pro), Reaper, Programming languages: Python, HTML, CSS, JS, A-Frame, Basic Arduino.

Professional Experience:

Concorde (2025-Present): 3D Printing and Design Instructor

Teach students the basics of 3D printing and design.

NYU IDM Design Lab (2024-Present): Designer in Residence

Develop and lead workshops on design for 3D printing.

Train new lab assistants.

Perform 3D printer maintenance.

NYU IDM Protolab/Design Lab (2022-2024): Lab Assistant

Develop training manuals.

Provide technical assistance for student projects.

Create references for basic practices for 3D printing.

Organize lab equipment.

Perform 3D printer maintenance.

NYU RLab (2021-2022): Production Assistant

Designed PR materials (banner design/videos) for Instagram and Youtube.

Provided technical support for Planet Real-Time virtual talk show.

Edited music videos, adapted audio content for video clips.

NYU Tandon Makerspace (2019-2020): Intern

Provide technical assistance for student projects.

Perform 3D printer maintenance.

Designed and produced Makerspace buttons for sale.

Designed laser cut MarioKart themed costumes for Halloween event.

Beacon Drama Arts Theater, Beacon School (2019-2020): Practical Effects Designer

Designed sets for two productions: *Wolves* and *Indecent*.

Carpentry, practical effects, painting, and woodworking.
